

Pandemic Pandemonium

A Neighborhood Influenza Pandemic Tabletop Exercise

Current Situation # 5 – Friday 1:43PM

In early December, human cases are identified in the United States. The Centers for Disease Control and Prevention (CDC) reports that the H7N3 influenza virus has been obtained from ill airline passengers arriving from Hong Kong and Tokyo in Los Angeles, Honolulu, Chicago and New York.

State and local health agencies are asked by the Centers for Disease Control and Prevention (CDC) to intensify influenza surveillance.

Businesses throughout America begin to purchase large quantities of antiviral drugs for their managers and their families.
