

## FLASH REPORT No. 02 Severe Weather Tornado Touchdowns

The Florida State Emergency Response Team

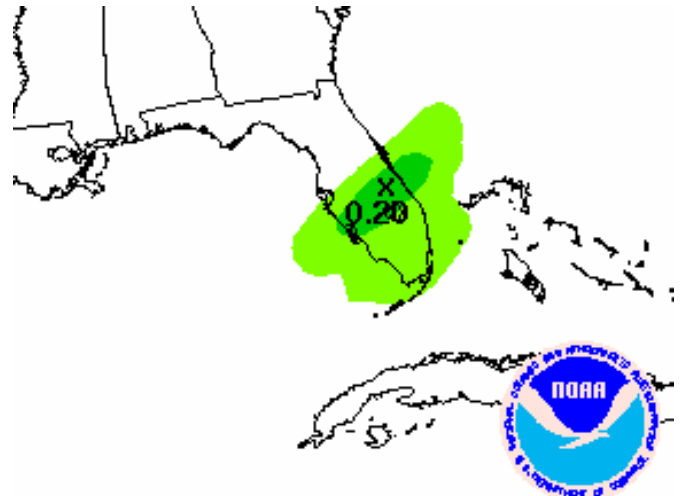

February 3, 2007 Published at Hrs.0930

State Emergency Operations Center Level: 1

Operational Period: February 03, 2007-0700 hrs-February 3, 2007-1900 hrs

### CURRENT SITUATION:

The State Emergency Operations Center (SEOC) is currently at Level 1 (Full) in response to several tornado touchdowns in Central Florida. The State Emergency Operations is fully staffed with all Emergency Support Functions (ESF). The SERT Forward Command has been established in Lake County.

### WEATHER:

Thundershowers with briefly heavy rainfall, gusty winds, and pea sized hail are possible in the tornado impact areas through the morning hours on Saturday. Clouds to ground lightning strikes are possible with this activity this morning. Temperatures today will remain near 60 degrees. Shower activity will begin to diminish during the evening hours tonight as temperatures begin to fall. Lows on Sunday morning will drop into the upper 30s. Partly cloudy conditions are expected from Sunday through Thursday. Highs will generally range into the 60s through early next week, with lows falling into the 30s.

**Information & Planning Section:** Intel Packages (Summary of Key Issues, Forecast Reports, Incident Action Plans (IAP), Resource Deployment reports, Pre/Post Indicator reports), Situation and Flash Reports are being developed and published as scheduled. Counties are reminded to email their Situation Reports to [esf5@inetmail.att.net](mailto:esf5@inetmail.att.net)
